

BigRep Announces Reseller Partnership with MakerPoint to Strengthen Market Reach in the BENELUX Region

BigRep partners with MakerPoint, a certified 3D printer reseller, to deliver reliable additive manufacturing solutions with low to high-temperature machines in Belgium, the Netherlands, and Luxembourg.

Berlin, Germany, & Arnhem, The Netherlands August 25, 2024 – BigRep, considered one of the global leaders in large-scale Fused Filament Fabrication (FFF) 3D printers has joined hands with MakerPoint to deliver large format 3D printing solutions. This alliance expands BigRep's market footprint and accessibility in the Netherlands, Belgium, and Luxembourg. The entirety of BigRep's 3D printing ecosystem of low to high-temperature machines, materials, software, and expert services are now available to BENELUX customers.

Bringing a combined 25 years of additive manufacturing experience, the partnership will enable manufacturers in a range of industries to benefit from in-house 3D printing technology. BigRep's portfolio of 3D printers is well-known in the additive world for their large build volume, open material system, verified 3D print filaments, advanced automation technology, and reliability enabling their customers to build strong, high-quality parts with every print.

BigRep's industrial 3D Printers that will be available in the BENELUX region through MakerPoint:

1. ALTRA 280: A high-temperature, large-scale industrial 3D printer that delivers complex production-quality parts without compromise.
2. IPSO 105: An industry all-rounder high-temperature machine at an unbeatable price-to-performance ratio.
3. VIIO 250: A large-scale, fully automated 3D printer for reliable continuous industrial manufacturing.
4. PRO: A one cubic meter powerhouse 3D printer, built to take you from prototyping to production, delivering end-use parts, factory tooling and more.
5. STUDIO: Gets 3D printing off your desk and takes it to the next level with the same ease as a desktop 3D printer but with 10 times the build volume.
6. ONE: An award-winning, large-format 3D printer at an accessible price point that brings your designs to life in full scale.

Ready to take your manufacturing process to the next level? Contact MakerPoint today via sales@makerpoint.nl to learn how they can help you implement BigRep's industrial 3D printing solutions into your workflow.

About BigRep

With more than 1,000 large-scale 3D printers already in operation across various industrial sectors, BigRep has earned its reputation with its expertise in large-scale FFF. The German-manufactured 3D printers empower engineers, designers, and manufacturers, spanning from startups to Fortune 100 corporations. BigRep's vision is to expedite the transition from prototyping to production, ensuring products get to market quickly.

About MakerPoint

MakerPoint is a value-added reseller specializing in leading brands of digital manufacturing products, including 3D printers, 3D scanners, and related materials and accessories. With their extensive knowledge, they provide customers with tailored solutions, offering consulting, training, implementation, and maintenance services. Their expertise ensures that professionals can fully leverage the innovative technologies from their partner brands.

Forward-looking statements

This release may contain forward looking statements, estimates, opinions and projections with respect to anticipated future performance of BigRep GmbH and its subsidiaries („BigRep“). These forward-looking statements can be identified by the use of forward-looking terminology, including the terms “believes,” “estimates,” “anticipates,” “expects,” “intends,” “may,” “will” or “should” or, in each case, their negative, or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. Forward-looking statements are based on the current views, expectations and assumptions of the management of BigRep and involve significant known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. Forward-looking statements should not be read as guarantees of future performance or results and will not necessarily be accurate indications of whether or not such results will be achieved. Any forward-looking statements included herein only speak as at the date of this release. BigRep undertakes no obligation, and does not expect to publicly update, or publicly revise, any of the information, forward-looking statements or the conclusions contained herein or to reflect new events or circumstances or to correct any inaccuracies which may become apparent subsequent to the date hereof, whether as a result of new information, future events or otherwise. BigRep accepts no liability whatsoever in respect of the achievement of such forward-looking statements and assumptions.
